

Nickel Cadmium Batteries

Rechargeable - Bulk

Saft Rechargeable Nickel Cadmium batteries are known for their superior performance. Saft offers a variety of batteries to meet modern day requirements. Saft batteries offer;

- Constant voltage during discharge
- Extremely high reliability
- Long cycle life (over 500 charge discharge cycles)

The **VRE Series** is well-adapted for applications requiring a permanent charge at temperatures of up to +35°C. The **VSE Series** is an "ultra-high energy" battery, fully recommended for the wide range of portable electronic applications.
