

Nickel Metal Hydride Batteries

Panasonic®

Rechargeable - Bulk

Panasonic Rechargeable Nickel Metal Hydride batteries were developed to meet the requirement for increasingly higher levels of energy demanded by today's electronic products. These Nickel Metal Hydride batteries can offer up to three times the capacity of the same size standard Nickel Cadmium batteries. Due to their increased capacity and energy density features, users can expect a longer time between charges and longer running time.

PART #	SIZE	VOLTS	CAPACITY	DIAMETER (mm)	HEIGHT (mm)
